BURN SEASON SAFETY REMINDERS

- Check daily burn status before lighting any fire. Conditions can change quickly due to weather and air quality.
- Burn only clean, dry vegetation. Trash, plastics, and construction debris are not allowed.
- Never leave your burn pile unattended. An adult must be present and have the means to extinguish the fire at all times.
- Keep water, tools, or a hose nearby for immediate control if the fire begins to spread.
- Maintain clearances of at least 10 feet around your burn area, free of grass, brush, and other flammable material.
- Do Not burn during windy conditions to prevent embers from escaping your control.
- Completely extinguish your fire before leaving the area—douse with water and stir until cold to the touch.
